MASTER YOUR PATH THROUGH VOICE

Module 3 Assignment

Explore your inner archetypes of The Magician and The Lover every day as detailed here...

1. Chant Om Namah Shivaya daily.
2. Contemplate your inner Magician
3. Follow your Magician daily with your sound movement sequence with HAM.
4. Journal at end of the movement what your magician would have you create in the world - however small or expansive. It might be a new cooking recipe you try or it might be composing a new song or painting a picture or beginning a new business project.
5. Chant Aham Prema (I am Love) which you can find on your Course Homepage and tune into your Lover archetype guidance. How does your lover energy appear to you? Does it have a form?
6. See if you can hold unconditional in your fruit bowl. Are you able to flow with unconditional love?
7. As you work with all the archetypes record daily in your journal how you are becoming alive!
8. Finally, now is the time to book your 20 minute Q&A session with me for about 10 days' time by emailing pa@freetheinnervoice.com. I look forward to hearing about your mastery!
